

CLY 353 MC45E

Insulating (Composite) Cable Cutter

Data Sheet

These cable cutting pliers are constructed from an exclusive composite material giving excellent insulating properties in low voltage, live working applications up to 1000v – specifically applications in confined spaces where a short circuit could lead to serious consequences for workers and equipment.

The pliers have been designed for use with insulating rubber gloves with softer ergonomics incorporated to avoid glove damage and potential injury to the worker.

IEC 60900 / EN 60900
Compliant

1 000 V

IEC 2823/03

Part Number	CLY 353 MC45E
Max Jaw Opening	22mm
Max Copper Cable	16mm ²
Max. Aluminium Cable	35mm ²
Length	190mm
Weight	165g
