## Electricians Tool Kit – 26 Tool

### Data Sheet

The Clydesdale 26 Tool Electricians Tool Kit has been developed to provide a useful range of insulated tools all stored in a handy and robust plastic carrying case. The tough foam padding is laser cut with deep slots to ensure the tools stay securely in place. All of the tools are compliant with EN 60900 up to 1000V. The specific tools in the kit have been chosen as a result of tool popularity based on our experience in the market place and customer feedback to equip the electrician for the right tool for just about any job. These include on of each of the following:

Part Number	Description
