## Clydesdale Arc Flash Jacket

### Data Sheet

**CLYDESDALE**  
Powering the Future

The newly developed Clydesdale Arcflash Jacket has been designed to give the wearer excellent thermal insulation combined with protection from electrical arc flash. It is constructed completely of flame retardant materials chosen specifically to provide the best protection against electrical arc flash risks in the workplace. The outer fabric of the jacket is Westex INDURA UltraSoft, whilst the quilted lining is Westex Moda-Quilt. Westex guarantees the flame retardancy of both these materials **for the life of the garment.**
