

CLYDESDALE

Powering the Future

DATASHEET: CLY 640 X000A

Aluminium Drumstands

Clydesdale aluminium lightweight drumstands are ideal for use in yards and depots. Fitted with wheels for easy manoeuvring, they have large baseplates making them very stable and easy to set up. The shaft is fitted with slide bearings for easy rotation and locking collars double as centring devices to ensure the shaft is in the centre of the drum to improve stability under pay-out. The robust hydraulic jacks have chrome plated pistons for corrosion resistance

- **Ideal for stores environment or where drum is changed on a regular basis.**
- **Design means an enormous range of drum sizes can be managed.**
- **Only for use on flat surfaces.**

Part No.	640 4000A	640 6000A
Max Load	4000kg	6000kg
Max Drum Diameter	2000mm	2800mm
Height	1080mm	1635mm
Weight (per pair)	38kg	64kg
Shaft Diameter	60mm	60mm
Shaft Length	1440mm	1830mm
Shaft Weight	17kg	22kg
Baseplate Size	350x600	420x670mm
