Arc Flash Gloves

Clydesdale PRO-WEAR Arc Flash Gloves are designed in a Clute cut style to provide maximum Arc Flash protection of the hands when conducting tasks where there is a risk of a flash over occurring. The gloves are not intended to provide electrical insulating protection from accidental contact with live parts.

The gloves are available in ATPV ratings of 12 to 100 cal/cm² to suit your particular level of risk. All Arc Flash Gloves are 14" length, one size fits most.

The gloves are CE marked to EN 531.

Part Number	ATPV Rating
CLY 570 012	12 cal/cm ²
CLY 570 020	20 cal/cm ²
CLY 570 031	31 cal/cm ²
CLY 570 040	40 cal/cm ²
CLY 570 055	55 cal/cm ²
CLY 570 100	100 cal/cm ²
