

DATASHEET: CLY 571 048 SRH

Clydesdale Switching Range Hood

Clydesdale's newest hood has many unique features that set it above any other on the market with the best level of fit, comfort and wearability:

- 50% Cotton / 49% polyester / 1% antistatic fabric for breathability
- Fabric weight 2x 345gsm layers
- Elasticated centre panel allows hood to adapt and move with the wearer
- Lift front design maximises availability of fresh air inside hood
- Internal CE-marked safety helmet protects the wearer from impacts while shielding helmet from the effects of an arc
- CE marked and fully arc tested assembly
- Arc rated to 48 cal/cm² (ATPV) according to ASTM F2178
- Arc Class 2 according to GS-ET-29
- EN166 arc visor
- Includes Clydesdale's double Chill-Pak system to keep the wearer cool on the warmest days.
- Optional Double work lights
- Arc protection guaranteed for the life of the garment
