## Powering the Future

### DATASHEET: CLY 5XX 125

### NOAH AS & CR RANGE

These products are a development of our standard NOAH range of Arc Rated PPE garments. They maintain all the performance features of the base NOAH range but also extend them to include certified Anti-static performance and Type 6 chemical resistance using a modified version of the standard NOAH fabric..

The Black and Red colour scheme is used to clearly identify whether a wearer is in standard NOAH or this enhanced version.

Like all NOAH garments, the range includes a broad spread of sizes and lengths to ensure the perfect fit.

NOAH AS is CE marked and certified to all current, relevant standards related to Arc Flash Protection and Flame spread as well as these new specialist performance criteria.
