Powering the Future

## DATASHEET: CLY 584 392X

## NOAH Double Layer Lab Coat

Clydesdale's NOAH Lab Coat is an item of arc-flash protective, everyday work wear. Designed specifically for electrical workers in contact with electrical apparatus that poses an arc flash risk. The double layer labcoat is designed to offer a very high arc performance garment that is light and easy to wear.

NOAH DL uses a double layer of Permanent FR fabric which still offers excellent breathability for comfort when working.

Every NOAH garment meets all current European standards for arc flash garments and their testing.

Clydesdale's garment production process is continually assessed under the EU PPE directive to ensure the garments are of the utmost quality and the wearer can trust their garments to always offer the maximum protection

### Key Information:

- Westex INDURA® UltraSoft® fabric, double layer
- 610g/m<sup>2</sup>
- Navy Blue / Silver Grey
- Popper front closure with full length internal and external flaps.
- External left breast patch pocket.
- Pen/mobile pocket on left sleeve.
