

CLY 370 M31

Triple Function Stripping Tools

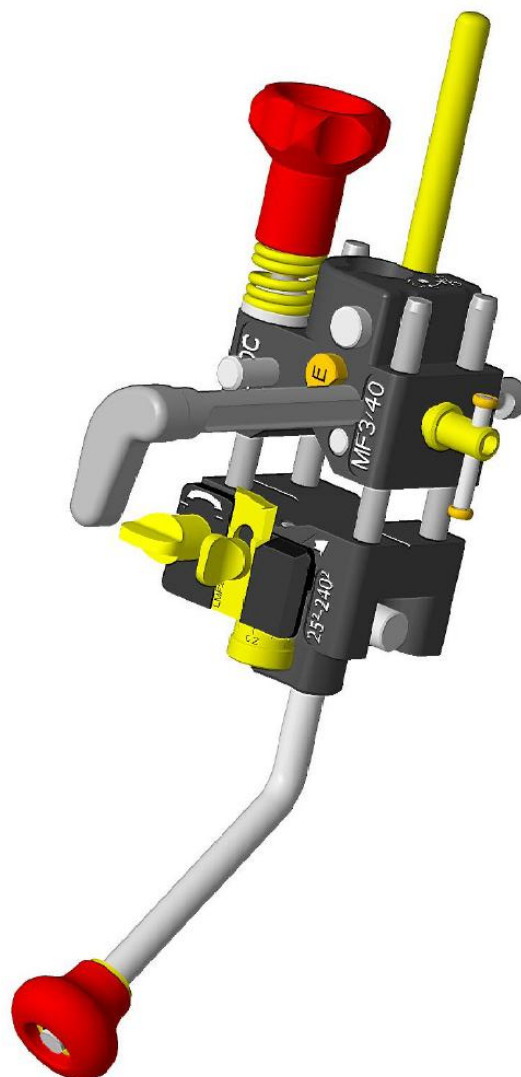

Data Sheet

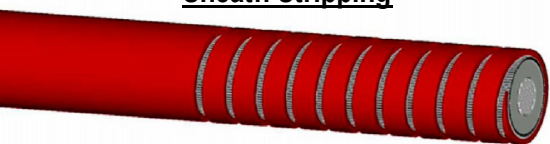

The CLY 370 M31 range of multi function stripping tools allow stripping of the cable sheath, peelable semi-conductor and insulation on cables with PE, PVC and PR outer sheathes. For sheath and insulator removal, the tool functions by clamping around the cable with a specially shaped, precisely adjustable blade cutting the sheath or insulator at a set depth as the tool is rotated around the cable. This produces a neat, clean, helicoidal cut. Semi-con removal is done by inserting a spring loaded blade shown opposite with four various scoring depths. Again the tool is clamped around the cable and rotated to score the semi-con to allow peeling.

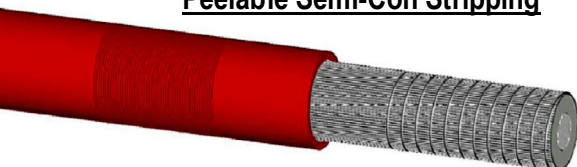

Available in two sizes according to the required cable diameter range, the tool has an adjustable stop allowing sheath, peelable semi-con or insulation removal of a set length up to 115mm.

Sheath Stripping

Peelable Semi-Con Stripping

Insulation Stripping

Part Number	CLY 370 M31 1640	CLY 370 M31 1658
Cable Ø	16-40mm	16-58mm
Cable CSA	25-240mm ²	25-630mm ²
Length	165mm	185mm
Width	80mm	85mm
Height	100mm	110mm
Weigth	1.520kg	1.650kg
