Powering the Future

DATASHEET: CLY 359 Tx0

Insulated Torx Screwdriver

These Torx screwdrivers are constructed with an insulated shank and handle. The tool is tested according to EN60900:2004 for use at 1000v (1500VDC) as well as having VDE-GS certification.

Flush, parallel insulation design around tip area to improve access into equipment and reduce chances of insulation damage.

They have an unlimited in-service life as long as the tool continues to pass a visual inspection of its condition.

Part No.	Drive	Length	Weight
CLY 359 T10	TX10	100mm	30g
CLY 359 T20	TX20	100mm	40g
