

CLYDESDALE

Powering the Future

DATASHEET: CLY 350 IS36

Insulated Nut Spinner

The Clydesdale range of nut drivers comes in a range of sizes to cover metric and British Association (BA) nut sizes.

The blade is forged from heat treated chrome vanadium steel and feature 6 point drive onto the nut. Specially designed for screwing and unscrewing the most inaccessible nuts, these drivers are fitted with the same handle / grip as our range of screwdrivers.

These nut drivers are compliant with EN 60900, ESI 26-3, VDE 0680 and NFC 18-400 guaranteeing insulation up to 1000V.

Part Number	Blade Length (mm)	Weight (g)
