

# CLYDESDALE

## Powering the Future

### DATASHEET: CLY 971

### Velcro Shroud

Produced in the USA for Clydesdale, these rolls are ideal for use by either linesmen, jointers or fitters who need to shroud a multitude of different appliances. The shroud is delivered on a cardboard tube in a neat box, along the lines of a domestic cling film, this allows quick access to the shroud which is then cut to the desired size with a knife or scissors. Available in two classes for use up to 1000V (Yellow) or 7.5kV (Yellow/Orange).

The cut lengths can be used again. The material used is a special combination of elastomers giving excellent protection against ozone and UV degradation. The shroud is strong, flexible and yet easy to cut without tearing. Conforms to ASTM D1048 with edging modifications.

The above rolls are also available in pre-cut sizes and can be fitted with Velcro to aid location. Clydesdale can make any size that you may require out of either of the two class materials available. The table below shows some of our most common variants.

Part No.	Class	Voltage Use	Dimensions	Velcro Applied	Comment
CLY 971 R0330	0	1,000V	3' x 3'	No	Roll
CLY 971 R1330	1	7,500V	3' x 3'	No	Roll
CLY 971 B00636	0	1,000V	6" x 36"	No	Conductor Cover
CLY 971 V00636	0	1,000V	6" x 36"	Yes	Conductor Cover
CLY 971 V10636	1	7,500V	6" x 36"	Yes	Conductor Cover
CLY 971 V01218	0	1,000V	12" x 18"	Yes	General Purpose Cover
CLY 971 V11218	1	7,500V	12" x 18"	Yes	General Purpose Cover
CLY 971 V01218SL	0	1,000V	12" x 18"	Yes	Slotted Blanket
CLY 971 V11218SL	1	7,500V	12" x 18"	Yes	Slotted Blanket
CLY 971 V01224	0	1,000V	12" x 24"	Yes	General Purpose Cover
CLY 971 V11224	1	7,500V	12" x 24"	Yes	General Purpose Cover
CLY 971 V03636	0	1,000V	36" x 36"	Yes	General Purpose Cover
CLY 971 V13636	1	7,500V	36" x 36"	Yes	General Purpose Cover
