Pole Climbers (spikes)

Widely regarded as the industry standard, the climbers attach to the inside of each leg and under the insteps by straps to allow the wearer to walk as well as climb. A gaff (replaceable) by each heel provides a climbing edge to grip the pole.

Specifications

- 8" (203 mm) x 8" (203 mm) cushioned, high-grade leather climber pads for maximum comfort.
- Neoprene-impregnated nylon climber straps for long-lasting life.
- Secure sleeve and leg iron connection. Two slotted hex-head bolts with lock washers and barrel-type nuts join the steel sleeve and leg iron together.
- Steel split ring secures ankle strap in place and allows for quick replacement.
- 4-7/16" (113 mm) wide stirrup provides greater foot support.
- Contoured leg irons help position gaffs securely and comfortably.
- Replaceable gaff firmly attaches to the leg iron with a centre pin and two TORX® screws.
- C.C.A. pole gaff. Designed to penetrate the hardest salt-treated poles.
- Spare parts are available.
- Weight per pair 3kg.

To determine size needed, measure from instep to 1" (25 mm) below knee.
